The prices of petrol and diesel are increasing day by days and on the other hand same happen with the cryptocurricies. What happen if you get reward for paying your gas(Petrol/Diesel) bills. That's where PDC comes onto play. PDC is an advanced way to pay your gas bills and earn rewards. You will make 10%PDC as a cash back for every payment on a gas station. By the end of 2022, our vision is to cover every mainstream gas station in the USA and soon expand on the other part of the globe.

PDC

**We understand that having a strong management team and a proven business strategy is fundamental to our project's success. Our portfolio constructs are primarily driven by our focus on the industry as a whole. This is why only the best brains in the industry have come together to achieve this landmark feat.**

**Our team consists of impressive experts in the blockchain and cryptocurrency niche, professionals in the finance industry, and thought leaders in tech.**

PDC Token is designed to provide maximum profit to its holders. It works on different strategies to maintain its price. PDC is decentralized, and it is on a mission to bring PDC holding benefits to an average person while easily payment for their gas fees. PDC offers these benefit's to their holders.

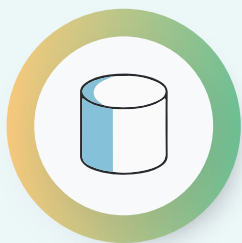

## PDC Cashback

You will make 10% PDC as a cash back for every payment on a gas station.

## Automatic Burning

To maintain the value of our community token we must put in place of deflection. Every time, 5% of the transaction values will be burned.

## Automatic Liquidity Pool

4% of every transaction (Buy/Sell) contributes toward creating further liquidity on Pancake Swap. It generated long term benefits for JPT token holders.

## RFI Static Reward

5% of every transaction (Buy/Sell) is taken and redistributed to all JPT holders. The burn address is also a holder thus, every sell/buy flattens the supply.

## Anti-Whale Mechanism

Transactions (Sell, Buy, transfer) that exchange over 0.1% of the complete supply will be dismissed. If whales prefer not to be taxed 10% to make an exchange (between 2 wallets) that is bigger than 0.1% of the absolute stock, they can utilize the Disruptive Transfer features. The exchange will be charged for 2 BNB without being taxed by 10%.

## Transparent Lottery

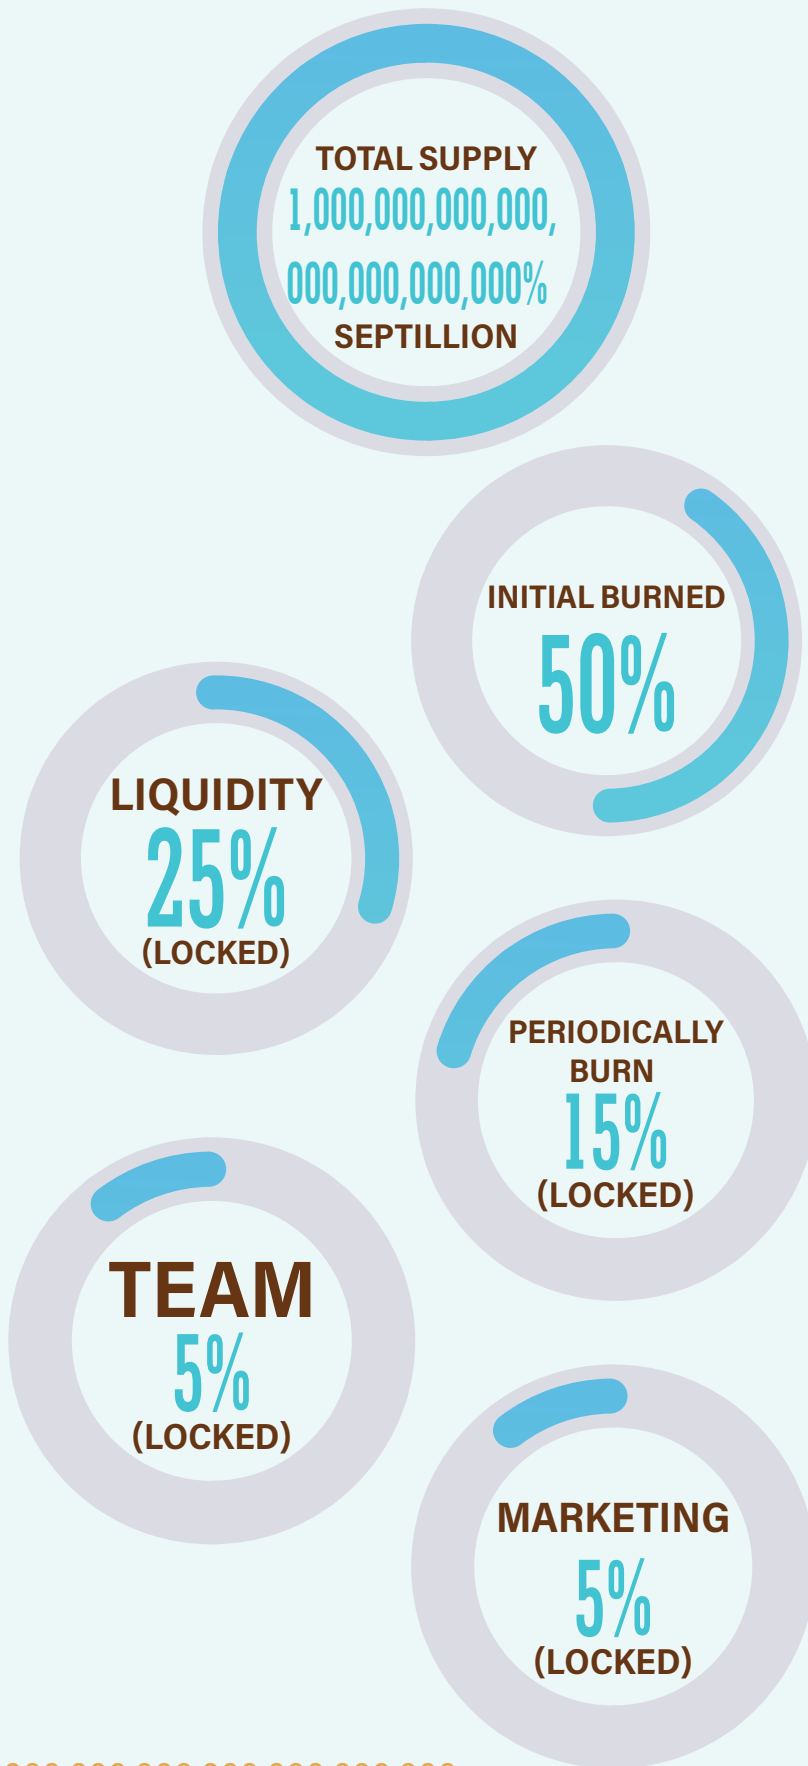

On each time claiming BNB reward JPT contract automatically generate a random number for lottery and winner get some extra BNB in addition to the basic reward.

## Community Powered

PDC is fully decentralized and owned by its wonderful and vibrant community. We welcome and embrace diverse perspectives to build PDC into the best community in crypto.
